

Reading Newsletter March 2024

These are just some of the books we have read in school recently:

Why not ask your child what other books they've read this term! How many of the books and authors can they name?

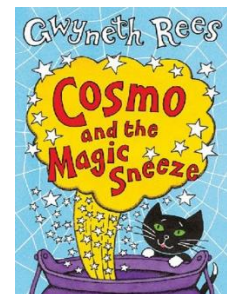

Book Reviews:

'Space Scientist' is super and has lots of information about Space. It tells you what space crews eat and where they sleep. I think my friend Cain would love to read this book because he LOVES Space!

By Ibrahim, Year 1.

I have recently read 'Cosmo and the Magic Sneeze', and really enjoyed it! It is a funny story about a cat called Cosmo and its owner, Sybil, who have a potion that can turn cats into witches. It is a great story with a twist at the end! I would recommend this book to children in years 3 to 5 who love magic!

By Lorelle, Year 5.

News!

- Last week, our Pupil Mentors began their new daily task of listening to children in Y1 and Y2 read. They are already doing a great job and are helping the children to improve their fluency skills.
- Look out for our brand-new outdoor reading areas which will be up and running soon – a reading shed and a 'lending library'!

How you can help us improve our reading in school:

Encourage a love of reading! **AccessIt** and **Wheeler's** are apps available on your school iPad with **FREE** access to thousands of books and audio books. Details of how to find these apps is on **Seesaw**.

Please donate any children's newspapers, comics and magazines that are in good condition to our academy so we can broaden our offer of types of reading materials!

Encourage your child to practise their reading fluency by uploading voice notes or videos of them reading aloud onto **Seesaw** for their teacher to see!

We are looking for some parent volunteers to listen to readers in school. A letter about this will follow soon!

**HAPPY
Reading!**

The Reading Team 😊
